SECOM'S BASIC BUSINESS AREAS

SECOM offers a wide range of security systems and products that help provide peace of mind in today's rapidly changing society. The Company's centralized and localized systems meet the security-related needs of homes, businesses and public institutions. Centralized on-line systems initiate immediate response by highly trained professionals, while self-contained proprietary security and building management systems facilitate on-site automated monitoring.

SECOM and its subsidiaries manufacture key components and research, develop, install and maintain all systems to ensure that customers receive consistent, high-quality services. The accompanying diagram outlines SECOM's comprehensive products and top-notch services which are backed by the resources and skills of the entire SECOM Group.

Access-Control Systems

SECURILOCK

SECURILOCK uses magnetic identification cards to control access to restricted areas.

SESAMO SERIES

SESAMO SERIES comprises access-control systems for use in corporate offices, factories, parking facilities and any other security-sensitive area. These systems employ such high-technology equipment as light-beam and microwave activated remote control, magnetic cards and fingerprint identification devices, as well as PC-operated access-control systems. These services include advanced electronic product-tagging systems that help store ownersprevent shoplifting.

Fire Detection and Extinguishing Systems

TOMAHAWK III

TOMAHAWK III is a new high-speed fire-detection-and-extinguishing system.

TOMAHAWK EX

TOMAHAWK EX is a compact, general-use system that automatically detects and extinguishes fire.

TOMAHAWK JET

TOMAHAWK JET, designed for use in restaurant kitchens and ductwork, is an automatic fire-detection-and-extinguishing system.

TOMAHAWK MACH I/II

TOMAHAWK MACH I, designed for homes and smaller businesses, is a highly effective and convenient fire-extinguishing system based on a central canister and flexible hose. TOMAHAWK MACH II is a more compact home-use model.

Intrusion- and Fire-Detection Systems for Building Perimeters

FLAME CHECKER

FLAME CHECKER detects fire indoors and outdoors.

BORDER SERIES

BORDER SERIES uses infrared beams to detect intrusions into large sites and buildings.

Equipment for Safeguarding Cash and Valuables

PYTHAGORAS SERIES

PYTHAGORAS SERIES is a large security vault composed of individual panels for easy transport and on-site assembly.

HANKS-Σ

HANKS-Σ is an easily assembled, durable security booth for unattended cash dispensers and ATMs.

CD PROTECTOR

CD PROTECTOR is a specially constructed hard shell that makes cash dispensers and ATMs virtually invulnerable to break-ins.

Others

SECOM CCTV SYSTEM

SECOM CCTV SYSTEM is a sophisticated, cost-effective closed-circuit surveillance camera system designed for local security systems. The SUPER CCTV SYSTEM version detects attempts to interfere with the surveillance camera.

SECOM VIDEO IMAGE TRANSMISSION SYSTEM

This system makes it possible to transmit moving images to remote locations in real-time and full-color.

PICTURE RECORDER

PICTURE RECORDER is a system that detects an intruder and takes a series of high-resolution still images in conjunction with security sensors. This helps to establish the causes of any accident by providing visual data on the scene just prior to the warning signal.

anies

nizations

SECOM FOGGY PROTECTION SYSTEM
SECOM FOGGY PROTECTION SYSTEM deters would-be burglars by filling the room with a thick, harmless chemical mist.
SECURICASE SERIES
SECURICASE SERIES is an anti-theft showcase with a specially designed glass and cover to protect valuables.

Local Systems

TOTAX-T
TOTAX-T is a self-contained, local control system for industrial and building complexes.
SECOM MUSEUM SYSTEM
SECOM MUSEUM SYSTEM provides full protection for museums and exhibition halls.

Armored Car Services

SECOM provides armored car services for the collection and transportation of cash.

Static Guard Services

Static guard services are provided for facilities where customer needs are best served by on-site personnel.
SECOM V-REX
SECOM V-REX is an integrated security package which offers high-grade security management system.

Centralized Systems

Commercial Use
SECOM SX
SECOM SX meets the special needs of small commercial buildings and offices.
SECOM MX
SECOM MX is a comprehensive security package for medium-sized commercial establishments and schools.
SECOM TX
SECOM TX provides protection for commercial buildings with more than one tenant.
SECOM BX
SECOM BX meets the exacting security requirements of financial institutions.
HANKS SYSTEM
HANKS SYSTEM is designed to meet the security requirements of automated banking facilities.
SECOM CX
SECOM CX monitors and manages large building complexes around-the-clock, eliminating the need for costly on-site computers and large custodial staff.
SECOM AX
SECOM AX, a new-generation on-line security control system with an advanced visual and voice sensor, has redefined the concept of security.
SECOM IX
An on-line visual security system for commercial facilities offering around-the-clock service.

Residential Use
SECOM HOME SECURITY PLUS
SECOM HOME SECURITY PLUS is a residential security system featuring a wide variety of functions, including the detection of fires, gas leaks and intrusions, through telephone lines. An emergency medical alert system is also provided. This system is an innovative and advanced security system which will play a major role in integrating SECOM's wide variety of services in the residential market. In addition to information on SECOM's business, products and services as well as security literature, it further provides memory functions (hand-written and voice memos, as well as a dictionary) and lifestyle support services, called "Super Terminal." These services can be operated using a new Home Controller which has a touch-sensitive color LCD panel.
SECOM MS-1, SECOM MS-2 and MS-2S
SECOM MS-1 security system provides comprehensive building management functions for condominiums, while SECOM MS-2 and MS-2S security systems offer these capabilities plus total safety with a centralized security system for each unit in the building.
