

SEMIANNUAL REPORT 2010

For the Six-month Period Ended September 30, 2010

PROFILE

Since its establishment in 1962, SECOM CO., LTD., a pioneer in Japan's security services market, has endeavored to contribute to society through its business activities, an approach that has allowed it to respond swiftly to society's evolving needs for security and peace of mind, as well as to achieve solid growth. Beginning with the development in 1966 of Japan's first on-line security service, SECOM has sought consistently to create security services that meet changing security needs and at the same time to gain broader acceptance of the concept of security services.

SECOM's overarching mission is encapsulated in its corporate message, "Providing peace of mind." To this end, SECOM—comprising the parent company and the companies of the SECOM Group—continues working to realize its vision for the future, the Social System Industry. This vision describes a framework of distinctive, integrated products and services that make life more secure, convenient and comfortable. In addition to its core security services, SECOM's business portfolio today includes fire protection services, medical services, insurance services. geographic information services, real estate development and sales, and information and communication related and other services, which SECOM combines into exclusive, tailored packages that enable it to provide safety and security to people whenever and wherever necessary. Through such efforts, SECOM continues to achieve steady growth.

SECOM has also expanded into overseas markets, establishing a network of subsidiaries and affiliates in Taiwan, the Republic of Korea (ROK), the People's Republic of China (PRC), Thailand, Malaysia, Singapore, Indonesia, Vietnam, the United Kingdom, Australia and the United States.

- Notes: 1. Comparisons of operating results in this semiannual report are between the six-month periods ended September 30, 2010 and 2009
 - SECOM's semiannual report presents information on its consolidated operating results, calculated in accordance with accounting principles generally accepted in Japan (Japanese GAAP).

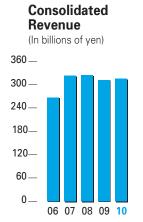

CONSOLIDATED FINANCIAL HIGHLIGHTS

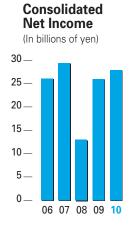

SECOM CO., LTD. and Subsidiaries Six-month periods ended September 30, 2010, 2009 and 2008

		I	n millions of yen	of U.S. dollars
_	2010	2009	2008	2010

Notes: 1. Net income per share figures are in exact yen and U.S. dollars.

- 2. All dollar figures herein refer to U.S. currency. Yen amounts have been translated, solely for the convenience of the reader, at the rate of ¥84=US\$1, the rate prevailing on the Tokyo Foreign Exchange Market on September 30, 2010.
- 3. Net income per share amounts are based on the average number of shares outstanding during each period.

TO OUR SHAREHOLDERS

Operating Results

In the six-month period ended September 30, 2010, economic conditions in Japan appeared to rally, bolstered by emergency stimulus measures, among others. Nevertheless, the risk of another slump intensified, owing to such factors as persistently high unemployment levels, fears of a downturn in key overseas economies, fluctuations in currency rates and share prices, and deflationary pressure.

In this environment, we responded to the increasingly varied needs of customers for security and peace of mind by offering distinctive products and services in our mainstay security services business, as well as in our fire protection services, medical services, insurance services, geographic information services, real estate development and sales, and information and communication related and other services businesses. Through such efforts, we continued working to achieve our Social System Industry vision—which depicts a framework of distinctive, integrated products and services that make life more secure, convenient and comfortable—and in so doing to fulfill our overarching mission, which is to provide safety and security for people whenever and wherever necessary.

Calculated according to accounting principles generally accepted in Japan (Japanese GAAP), consolidated revenue in the period under review was up 0.9%, to ¥315.4 billion. In contrast, operating profit slipped 2.1%, to ¥47.9 billion. Ordinary profit advanced 6.3%, to ¥51.3 billion, reflecting a ¥1.2 billion increase in non-operating income and a ¥2.8 billion decrease in non-operating expenses. Net income rose 9.8%, to ¥28.7 billion.

Segment Results Security Services

The security services segment comprises electronic security services, other security services and sales of merchandise. Electronic security services consists of on-line commercial and home security systems (centralized security systems) and large-scale proprietary security systems. Other security services features static guard and armored car services. Merchandise includes closed-circuit television (CCTV) surveillance systems, access-control systems and external monitoring systems. We offer security services in Japan and, through a network of subsidiaries and affiliates, in several overseas markets.

In the period under review, revenue in the security services segment edged up 0.2%, to ¥205.1 billion. Owing to an increase in systems development costs related to, among others, broadband communications, operating profit declined 1.4%, to ¥49.4 billion. Operational highlights included the launch of several innovative products. The Intelligent Emergency Alert System, released in September 2010, automatically detects abnormal or suspicious situations and alerts a SECOM control center without the need for anyone to push a button. The same month we

introduced a new external sensor that uses a laser beam, facilitating the detection of intrusions over a wide area and ensuring effective monitoring even at sites where physical impediments would hamper the performance of conventional sensors. These new products—some of which were initially showcased at the SECOM Technical Fair, a three-day event held in Tokyo in April 2010—assisted efforts by our salespeople to market upgrades to existing subscribers, many of whom recognized the benefits of increasing their level of security.

Fire Protection Services

The fire protection services segment consists of automatic fire alarm systems, fire extinguishing systems and other fire protection systems for a wide range of applications, including office buildings, plants, tunnels, cultural properties, ships and residences. The absence of revenue from the replacement of fire protection equipment in large-scale facilities, a key contributor in the six months ended September 30, 2009, led to a 6.1% decline in segment revenue to ¥30.7 billion, and an operating loss of ¥194 million, compared with operating profit of ¥976 million.

Medical Services

This segment includes home medical services, comprising pharmaceutical dispensing and delivery services and home nursing services, as well as remote image diagnosis support services, electronic medical report systems, sales of medical equipment, the operation of residences for seniors, personal care services, the leasing of real estate for medical institutions, and a variety of other businesses. Owing to firm revenue from home medical services and solid sales of medical equipment, segment revenue rose 8.2%, to ¥19.7 billion, and operating profit advanced 8.5%, to ¥1.2 billion.

Insurance Services

In addition to security services, which are preventative by nature, we offer non-life insurance, which looks after customers in the event of misfortune. Our lineup includes fire insurance policies for commercial premises and homes, comprehensive automobile insurance and MEDCOM, an unrestricted cancer treatment policy. Segment revenue increased 5.1%, to ¥16.4 billion, reflecting firm sales of MEDCOM. In contrast, operating profit fell 38.8%, to ¥660 million, owing to an increase in the reserve for natural disasters, compared with a reversal of the same reserve in the six months ended September 30, 2009.

Geographic Information Services

Subsidiary Pasco Corporation, a leader in the field of geospatial information services, collects satellite and aerial data both in Japan and overseas, which it processes and combines with other crucial information to meet customer requirements. In the period under review, segment revenue rose 8.2%, to ¥18.2 billion, reflecting steady progress on work for national and local

government agencies. Because public-sector orders, the primary source of revenue for Pasco, tend to be concentrated toward the end of the fiscal year, operating profit follows a similar trend. Owing to stringent process management and cost-cutting efforts, operating profit amounted to ¥901 million, up from an operating loss of ¥426 million in the corresponding period of the previous fiscal year.

Real Estate Development and Sales

This segment centers on the development and sales of condominiums that are equipped with advanced security systems and contingency planning features. In the period under review, segment revenue climbed 49.6%, to ¥8.4 billion. However, owing to efforts to reduce real estate inventories, ongoing since the fiscal year ended March 31, 2010, the operating loss worsened slightly, to ¥491 million.

Information and Communication Related and Other Services

This segment consists primarily of information and communication related services—including information security systems and network systems operations services, which assist customers to formulate effective business continuity plans—and real estate leasing. In the period under review, segment revenue declined 11.0%, to ¥16.7 billion, owing primarily to the divestiture in August 2009 of Japan Image Communications Co., Ltd.—which contributed ¥1.9 billion to segment revenue in the six months ended September 30, 2009—and operating profit fell 32.7%, to ¥1.7 billion.

Looking Ahead

We continue pursuing a variety of initiatives aimed at realizing our vision, the Social System Industry, a framework of distinctive, integrated products and services offered both individually and combined into tailored, integrated packages.

In our mainstay security services segment, we aim to remain abreast of evolving social imperatives and to rally our technological strengths with the aim of accelerating the development of advanced products and services. We are working to offer improved security to existing subscribers, as well as to cultivate new customers, by ensuring the timely launch of new systems. For commercial security services customers, we are developing new, more efficient and more environment-friendly on-line security systems that help reduce costs and enhance operational efficiency. For home security services customers, we are strengthening our lineup of products and services. We are also leveraging our advantage as Japan's leading security services provider to reinforce SECOM Home Service, which encompasses a variety of lifestyle support services. Overseas, we are capitalizing on our accumulated expertise to reinforce security services in key growth markets, with a special emphasis on

the PRC. To this end, we reorganized our rapidly expanding overseas operations, which were previously divided by region, creating an International Business Headquarters in Japan to centralize administration. This new configuration will enable us to ensure a consistently high level of quality worldwide.

In other businesses, we are striving to maximize our unique capabilities, as well as to promote greater cooperation across business lines. Such efforts are crucial to the provision of distinctively SECOM products and services and thus to the realization of our Social System Industry vision.

As always, we are guided by our original corporate philosophy, which emphasizes challenging accepted norms to create innovative and better-suited solutions, and by our corporate message, "Providing peace of mind." We pledge to work as one to contribute to society through our business activities—our ultimate objective as a corporate entity—and to ensure our customers feel confident relying on SECOM.

Recognizing the fair return to shareholders as an important task, we determine consolidated dividend payout levels based on an overall assessment of trends in our operating performance, in line with our policy of ensuring a consistent, stable distribution of profits. For the fiscal year ending March 31, 2011, we forecast annual cash dividends of ¥90.00 per share, up from ¥85.00 per share in the fiscal year ended March 31, 2010.

In all of our endeavors, we look forward to the ongoing support of our shareholders.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

SECOM CO., LTD. and Subsidiaries

1. Basis of Financial Statements

The accompanying consolidated financial statements have been prepared in conformity with accounting practices ordinarily followed in connection with interim financial statements in Japan and translated from the financial statements that are prepared in Japanese and filed with the Prime Minister of Japan and the Tokyo Stock Exchange. Certain modifications as to the presentation of the accompanying financial statements were made to facilitate understanding by non-Japanese readers.

2. U.S. Dollar Amounts

U.S. dollar amounts are included solely for convenience and are stated, as a matter of arithmetical computation only, at the rate of ¥84=US\$1, the rate prevailing on the Tokyo Foreign Exchange Market on September 30, 2010.
