Explanation on Applicable Matters

With the objective of further clarifying our future direction and ensuring future growth, we have formulated the SECOM Group Road Map 2027, in which we identified investing in growth while remaining aware of the cost of capital as a key financial strategy. Specifically, the road map outlines core strategies that emphasize investing in growth to provide new services and solutions with the goal of expanding profitability, promoting continuous investments to secure and foster human resources, and improving productivity by maximizing service value and bolstering operational efficiency. We also set a financial target, namely, return on equity of 10% by the fiscal year ending March 31, 2028, and are promoting various initiatives to ensure its achievement. We continue to discuss capital policy, etc. at the Board of Directors’ meetings and disclose the progress of our efforts to enhance capital efficiency in our integrated report and various other materials.

Moreover, We constantly seek to optimize the business portfolio. We comprehensively assess each business segment under the Group umbrella, looking at financial performance alongside intersegment synergies and the social significance of each business to ensure the optimal allocation of management resources. We assess segment-specific financial performance based on the characteristics that distinguish each business—growth potential, investment efficiency, market growth potential, industry profitability, and relative market share—under the following four categories: businesses that drive growth (high capital return/high growth potential), businesses that maintain or improve profitability (high capital return/low growth potential), businesses that require development and careful observation (low capital return/high growth potential), and businesses that require restructuring (low capital return/low growth potential). As needed, we review the group structure of businesses that require restructuring, seeking to shift such businesses into the category that maintains or improves profitability. Going forward, we will continue to review the business portfolio with optimization in mind.

Regarding our capital allocation policy, as stated in the presentation material, Financial Results for the Fiscal Year Ended March 31, 2026, we will allocate capital for growth investments and ongoing investments in order to realize sustainable growth and enhance shareholder returns in a stable and continuous manner.

In addition, we recognize that the Group’s cost of shareholders’ equity is roughly 5%-7%. By implementing the measures included in the SECOM Group Road Map 2027 while engaging in ongoing dialogue with the equity market going forward, we will aim to achieve profitability that exceeds the cost of shareholders’ equity for the medium- to long-term enhancement of corporate value and the common benefit of shareholders.

5. Other Special Circumstances Which May Have Material Impact on Corporate Governance

1. The Group has been working to realize “SECOM Group’s Vision for 2040” with the aim of establishing a Social System Industry that achieves a society that enjoys “safety, peace of mind, comfort and convenience,” by providing primarily security services and other various services in a combined and integrated manner. In a corporate framework to realize that objective, the Company owns a listed subsidiary, Nohmi Bosai Ltd. Nohmi Bosai Ltd. is a subsidiary, which covers the Group’s fire protection services segment, with its primary business domain comprising the provision of various fire protection systems such as automatic fire alarm systems and fire extinguishing systems. Nohmi Bosai’s current status as a listed subsidiary is recognized as most desirable, as that status, along with the company’s established history and brand value, can contribute to maximizing the Group’s corporate value through ensuring confidence from business partners, while securing superior talents with expertise in fire protection and other areas.
In order to ensure the appropriateness of operations in consolidated management, the Group has established the “Basic Rules for SECOM Group Corporate Management” to clarify the standards for items requiring prior approval and reporting to the Company when the subsidiaries make important decisions. However, to respect the independence of the listed subsidiary, these rules do not extend to it.
In addition, when exercising voting rights regarding the appointment and dismissal of Directors and Audit & Supervisory Board members of the listed subsidiary, the Company fully respects the decisions of the Nomination and Compensation Committee and the Board of Directors established by the listed subsidiary. The Company appropriately reviews the composition of its group portfolio and will continue to consider it, taking into account the business characteristics and others of each subsidiary.
2. System under which the group of enterprises consisting of the Company and subsidiaries is ensured to properly execute its business
 - (1) Abiding by the Constitution of SECOM’s Business and Operation, each of the subsidiaries shares the SECOM Group Code of Employee Conduct, which applies to all executives and employees.  - (3) Each of the subsidiaries carries out IT controls in conformance with the SECOM Group Information Security Basic Policy. The Company’s ICT Executive Officers conduct timely inspections covering the IT management of major subsidiaries.
 - (4) The SECOM Group Management Committee, which is chaired by the Company’s President and Representative Director and whose members are composed of the presidents of major subsidiaries and other parties appointed by the chairperson, works to ensure that appropriate operations are carried out. It accomplishes this goal by conducting discussions of issues related to the internal controls in an effort to share Group information and operating philosophy.
Where necessary, the President and Representative Director reports the results to the Board of Directors and the Audit & Supervisory Board.
 - (5) The President and Representative Director of the Company issues orders to the internal audit departments (Internal Audit and Compliance Department and Group Governance Department) to inspect subsidiaries, if necessary. The subsidiaries accept the inspection by the Company, and at the same time promote the understanding and improvement of compliance-related issues by exchanging information with the Company. Furthermore, the Company establishes the whistle-blowing system “Group Head Office Helpline” which enables executives and employees of subsidiaries to directly report to the Company’s Group Governance Department, whenever they become aware of any non-compliance. Pursuant to the “Basic Policy of the SECOM Group for Compliance” and the “Internal Reporting Rules”, the Company will keep the reported matters confidential, and take necessary investigation and appropriate measures. Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

The Company has established a policy for determining the contents of remuneration of individual Directors (hereinafter referred to as the "Determination Policy"), and its outline is as follows:

The remuneration of Directors shall consist of pecuniary remuneration (fixed monthly remuneration and bonus) and share-based remuneration. Outside Directors shall be entitled only to fixed monthly remuneration. In the case of a death of an incumbent Director of the Company excluding Outside Directors (hereinafter, "Subject Directors"), officer condolence money shall be paid to the bereaved family of the deceased Director in accordance with the Regulations on the Provision of Officer Condolence Money established by the resolution of the Board of Directors subject to the approval of the General Meeting of Shareholders.

Regarding pecuniary remuneration (fixed monthly remuneration and bonus), it was resolved at the 44th Ordinary General Meeting of Shareholders held on June 29, 2005 that the total amount shall not exceed 600 million yen per year (the number of Directors pertaining to the resolution was eleven (11)). Additionally, with regard to the share-based remuneration to be paid to Subject Directors, it was resolved at the 60th Ordinary General Meeting of Shareholders held on June 25, 2021 that (a) the total amount of monetary claims to be provided to grant restricted stock shall not exceed 100 million yen per year, which is separate from pecuniary remuneration, and that the number of common stock shares to be issued or disposed as restricted stock shall not exceed 20,000 shares per year (Note: the number of Subject Directors pertaining to this resolution was seven (7)); (b) the Non-transferable period shall be the period from the date on which the Subject Director receives the issuance or disposition of the common stock shares of the Company (hereinafter the "Grant Date") until the day on which

CORPORATE GOVERNANCE

the Subject Director resigns or retires from the office and ceases to be any of Director, Executive Officer, Audit & Supervisory Board Member, and employee of the Company (hereinafter the “Directors, etc.”) (including resignation or retirement due to death, hereinafter the “Retirement, etc.”); (c) upon the expiration of the Non-transferable Period, the Company shall acquire all such common stock shares held by such Subject Director free of charge as a matter of course unless the Retirement, etc. of a Subject Director from the office of Director, etc. is determined by the Board of Directors of the Company to be due to a reasonable cause, such as expiration of the term of office, mandatory retirement due to age, or death; and (d) upon the expiration of the Non-transferable Period, notwithstanding the determination by the Board of Directors that the Retirement, etc. of a Subject Director from the office of Director, etc. is due to a reasonable cause, such as expiration of the term of office, mandatory retirement due to age, or death, if the Retirement, etc. occurs before the close of the first Ordinary General Meeting of Shareholders held after the Grant Date, except for a certain number of such common stock shares determined in accordance with the reasonable standard set out in advance by the Board of Directors of the Company among such common stock shares held by such a Subject Director, the Company shall acquire the rest of such common stock shares held by such Subject Director free of charge as a matter of course. Based on this resolution of the general meeting of shareholders, the Board of Directors, based on the result of deliberation by the Nomination and Compensation Committee, shall determine the share-based remuneration of each director within the limit of the maximum amount and number mentioned in (a) above.

The amount of fixed monthly remuneration (pecuniary remuneration) of each Director and the amount of share-based remuneration (the amount of monetary claims provided to grant restricted stock) of each Subject Director shall be determined in comprehensive consideration of the job responsibility and the number of years of office of each Director as well as the financial performance of the Company. The amount of bonus of each Subject Director shall be made with comprehensive consideration given to degree of achievement of targets including consolidated operating profit, earning per share, and employee engagement (employee satisfaction), which are the key management targets of the Company.

Fixed monthly remuneration is paid every month. Bonus for each fiscal year is paid in July of the following fiscal year. Share-based remuneration for each fiscal year is paid in July of the same year subject to the Non-transferable Period above.

As the remuneration of each Director for the current fiscal year has been determined in accordance with the procedure outlined above, the Board of Directors has determined that the contents of the remuneration are in line with the Determination Policy.

To strengthen the independence and objectivity of the functions and the accountability of the Board of Directors concerning the nomination and remuneration of Directors, the Company has established a Nomination and Compensation Committee. The Committee formulates a draft and submits a proposal on the election and removal of Directors to the Board of Directors, determines individual pecuniary remuneration of Directors, and discusses share-based remuneration and advises it to the Board of Directors. The Nomination and Compensation Committee consists of the following three members in total (including two Outside Directors): Hajime Watanabe (Chairperson, Outside Director), Yasuyuki Yoshida (President and Representative Director), and Miri Hara (Outside Director).

We have adopted an Audit & Supervisory Board System, whereby the Audit & Supervisory Board—which includes three outside members—and the Board of Directors coordinate with the internal audit departments to audit and supervise Directors’ and Executive Officers’ discharge of their duties. Furthermore, under this system, five Outside Directors have been appointed for adopting external viewpoints in decision-making, while ensuring legitimacy and objectivity in management. Details of the system are as follows:

1. Organs and organizational units within the Company concerning its business execution, audit and oversight

(1) Board of Directors

The Board of Directors comprises 11 Directors (including five Outside Directors), in principle a meeting of which is held monthly with five members of the Audit & Supervisory Board (including three Outside Audit & Supervisory Board Members) also in attendance.

We currently have 30 Executive Officers, six of whom are also Directors.

(3) Audit & Supervisory Board

The Audit & Supervisory Board comprises five members, two of whom are full-time and three of whom are outside. In principle, a meeting of the Audit & Supervisory Board is held monthly.

Audit & Supervisory Board Members attend the Board of Directors meetings and other important meetings to exchange opinions regarding matters related to overall corporate management and receive reports on the status of execution of duty by Directors, while conducting audits focusing on discovering, if any, violations of laws and regulations, or the Articles of Incorporation, or the facts that compromise shareholders' interest. Furthermore, the Audit & Supervisory Board Members conduct audits based on audit plans across overall operations of the Company as well as its subsidiaries and affiliates.

If necessary, to ensure the efficiency of audits, Audit & Supervisory Board Members ask the internal audit departments to conduct investigations.

3. Reasons for Adoption of Current Corporate Governance System

The Company has appointed Outside Directors with a wealth of insights into corporate management and other matters and established a framework that enables the Board of Directors to adopt their externally oriented and broad-based viewpoints free from dwelling excessively on the internal circumstances of the Company and to ensure management transparency and objectivity. Under the framework, the Company is believed to have established an independent management-oversight function as well as a function to maintain appropriateness in business execution.

In the meantime, the Company has appointed Audit & Supervisory Board Members (including three Outside Audit & Supervisory Board Members for ensuring effective independence) with insights that cover management, financial and legal matters, and established an organizational structure (including establishment of the Office of Audit & Supervisory Board) outside the operational line of command that supports the Audit & Supervisory Board Members, along with a framework (including regular meetings between the President and Representative
