

Since its establishment in 1962, **SECOM CO., LTD.**, a pioneer in Japan's security services industry, has sought to develop and encourage broad acceptance of pioneering services and systems that provide security and peace of mind, in line with its belief in the importance of contributing to society through its business activities.

Beginning with Japan's first on-line security system for commercial use, SECOM has continued to grow its businesses by developing and popularizing a wide range of services and systems over the years that reflect evolving social imperatives. These include an on-line home security system and COCO-SECOM, a mobile personal security system for outdoor use.

Today, the overarching mission of SECOM—comprising the parent company and the companies of the SECOM Group—is to provide safety and security for people whenever and wherever necessary. Accordingly, we are pressing ahead with efforts to realize our vision for the future, the Social System Industry, which describes a framework of distinctive, integrated services and systems that make life more secure, convenient and comfortable. To this end, we have capitalized on our extensive business portfolio—which has expanded to include security services, fire protection services, medical services, insurance services, geographic information services, information and communication related services, and real estate and other services—to create a solid foundation for future growth, working not only to enhance individual businesses but also to integrate services and systems, thereby yielding considerable synergies to drive future growth.

Today, we continue to maximize Group synergies to expand the scope of our operations by promoting the "ALL SECOM" concept, which focuses on rallying Group strengths to create uniquely SECOM services and systems that enhance convenience and comfort and deliver security and peace of mind. Through these efforts, we seek to encourage people to turn to SECOM with the confidence that doing so will help them resolve security and other concerns.

We have also expanded outside Japan. Currently active in 21 countries and territories, where we provide uniquely SECOM security services, fire protection services, medical services and geographic information services customized to reflect local needs and sensibilities, we continue to strengthen and grow our overseas operations.
