

Regarding Publication of SECOM Report 2020

Disclosure Configuration

The IR and Sustainability sections of the SECOM corporate website provide additional detailed information on our operating performance, including financial statements prepared in accordance with U.S. GAAP, and initiatives aimed at helping realize a sustainable society.

Editorial Policy

For many years, we published an annual report that provided a comprehensive look at our activities and performance, focusing on financial information but also including ESG-related and other nonfinancial information.

In 2020, we revised our overall approach to the report, enhancing nonfinancial information to more accurately reflect our identity as a company that seeks to provide enduring peace of mind to an ever-changing society and, through that effort, to continue growing together with society. Accordingly, we also changed the name to "SECOM Report," which we feel is more appropriate for the current format. References used in the production of SECOM Report 2020 include the disclosure framework for integrated reports issued by the International Integrated Reporting Council (IIRC) and Guidance for Collaborative Value Creation, put out by Japan's Ministry of Economy, Trade and Industry (METI). We have positioned this report as a core tool that systematically and concisely communicates with shareholders and investors by combining information on the various strategies that are essential to the creation of corporate value with financial and nonfinancial information.
