Profile

SECOM CO., LTD., a pioneer in Japan's security services industry, was established in 1962. Since then, the Company has sought to create innovative services that benefit society as a whole, in line with its mission of helping achieve a society free from concerns.

Today, SECOM, comprising the parent company and the companies of the SECOM Group, boasts an extensive business portfolio encompassing security services, fire protection services, medical services, insurance services, geospatial information services, business process outsourcing and information and communications technology (BPO and ICT) services, and other services. By striving to create services and systems that deliver safety and peace of mind, as well as make life more comfortable and convenient, SECOM is striving to realize its Social System Industry vision, which describes a framework of distinctive, integrated services and systems essential to society.

Operating in an environment characterized by significant upheaval and amplified uncertainties, in 2017 SECOM formulated the SECOM Group's Vision for 2030 with the aim of accelerating realization of the Social System Industry vision. Guided by this vision, the Company is building the ANSHIN* Platform, a service infrastructure designed to provide peace of mind to people in their everyday lives, as well as to society as a whole. By identifying diverse needs arising from social change and responding with provision of a steady stream of new services, SECOM will seek to further accelerate its own growth while delivering safety and peace of mind whatever the situation.

SECOM has also expanded into 17 countries and territories outside Japan. Currently, Group companies extend distinctive SECOM security services, fire protection services, medical services, geospatial information services, and BPO and ICT services customized to reflect local needs and sensibilities. Going forward, SECOM will continue to broaden global awareness of the SECOM brand.

* ANSHIN is Japanese for "peace of mind."

We see our mission as being to help achieve a society free from **concerns**. Accordingly, throughout our history we have sought to create services and systems that benefit society as a whole.

Since our establishment, we have adhered to SECOM's Philosophy, which emphasizes contributing to society through our business activities. Ideas and principles of conduct, including this philosophy, which are shared by all employees, guide everything we do and have nurtured a uniquely SECOM identity that remains crucial to our ability to achieve our mission.

SECOM's Philosophy has been passed down through generations of employees since our establishment and continues to be the driving force behind all we do. This philosophy emphasizes a refusal to be content with the status quo and a commitment to doing what is appropriate. The first element expresses our determination to provide innovative services and systems by challenging accepted norms, while the second means judging the legitimacy of our actions by examining whether they are just, fair and beneficial not only to SECOM but also to society as a whole. We have published SECOM's Philosophy in the form of a handbook, which has been distributed to employees in Japan and overseas, and continue to capitalize on training and other opportunities to share the philosophy and advance its implementation.
