# Corporate Philosophy

## SECOM’s Philosophy

SECOM’s Philosophy, the driving force behind all we do, has been passed down through generations of employees since our establishment, serving as our code of conduct. This philosophy emphasizes a refusal to be content with the status quo and a commitment to doing what is appropriate. The first element expresses our determination to provide innovative services and systems by challenging accepted norms, while the second means judging the legitimacy of our actions by examining whether they are just, fair and beneficial not only to SECOM but also to society as a whole. We have published SECOM’s Philosophy in the form of a handbook, which has been distributed to employees in Japan and overseas, and continue to capitalize on training and other opportunities to share the philosophy and advance its implementation.
