

PROFILE

In the 37 years since its establishment, SECOM CO., LTD., has earned a reputation as a pioneer in the development of entirely new industries. SECOM's on-line security system, introduced in 1966, marked a turning point, transforming SECOM from a vendor of manpower-intensive security services into a provider of security systems combining computerized remote monitoring and human support and enabling it to expand the scope of its security services. SECOM has also utilized its security and network capabilities to diversify into areas such as medical care, educational and information services.

The Company has also expanded its security services worldwide through a network of subsidiaries and joint ventures. This global network currently encompasses operations in the United States, the Republic of Korea, Taiwan, Thailand, Malaysia, Singapore, Indonesia, the People's Republic of China, the United Kingdom and Australia.

SECOM has also broadened the scope of its operations to include non-life insurance, real estate development, cyber security and geographic information services. In line with its core objective of providing peace of mind to people everywhere, SECOM will continue to upgrade its existing products and services and apply its expertise to diversify into high-potential new business areas.
