SECOM Selected for the ESG Investment Index, FTSE Blossom Japan Sector Relative Index

Included in All Five GPIF ESG Investment Indices

SECOM CO., LTD. (Headquartered in Shibuya-ku, Tokyo: President and Representative Director Ichiro Ozeki) has been selected for FTSE Blossom Japan Sector Relative Index.

The FTSE Blossom Japan Sector Relative Index is designed by FTSE Russell, the global index provider, as a sector neutral benchmark that reflects the performance of companies demonstrating strong environmental, social and governance practices (ESG) in Japan. In addition, to support the transition to a low carbon economy, for companies with high GHG emissions, only those whose improvement efforts are evaluated by the TPI Management Quality Score are eligible for index inclusion.

In March 2022, GPIF (Government Pension Investment Fund) adopted the FTSE Blossom Japan Sector Relative Index and began passive investment tracking it. Including this index, SECOM is now selected for inclusion in all five indices which GPIF adopted for ESG investment in Japanese companies.
